Summary

A motivated and detail-oriented Bachelor of Technology student in Computer Science with a strong foundation in programming, web development, and core software engineering principles. Proficient in Java, Python, and full-stack web development using modern technologies. Seeking an entry-level opportunity in a dynamic organization where I can apply my technical skills to contribute to innovative projects and enhance professional growth.

Education

Bachelor of Technology in Computer Science and Engineering (Pursuing)	2022 – Present
Annie Institute of Technology & Research Center, Chhindwara	
Class 12 (Higher Secondary)	2021 – 2022
Govt. H.S. School Kamthi, Chhindwara	
Class 10 (High School)	2019 – 2020
Govt. High School Rajada, Chhindwara	

Technical Skills

- **Programming Languages:** Java, JavaScript, C++, Python
- **Web Technologies:** HTML, CSS, React.js, Node.js, Next.js, Express.js, Tailwind CSS
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman, Docker, CI/CD, Versal
- **Core Concepts:** OOPs, RESTful APIs, Data Structures & Algorithms

Projects

Real-Time Chat Application (MERN Stack) GitHub

- Developed a full-stack real-time chat application using MongoDB, Express.js, React.js, and Node.js.
- Implemented secure user authentication and authorization using JWT.
- Built RESTful APIs for user management, chat creation, and message handling.
- Designed a responsive and user-friendly chat interface using React.js.
- Focused on scalable architecture and clean frontend-backend integration.

Bank Management System (Java, MySQL) GitHub

- Developed a desktop-based banking application using **Java (Swing/AWT)** for the user interface.
- Implemented core banking functionalities such as account creation, deposit, withdrawal, balance inquiry, and mini statement.
- Integrated **MySQL** database using **JDBC** for secure data storage and retrieval.
- Applied **Object-Oriented Programming (OOP)** concepts for modular and maintainable code.

Experience

Full Stack Developer (Academic Project – MERN Stack)

Project: SocialConnect – Social Media Platform GitHub

- Designed and developed a social media web application enabling users to create profiles and connect with others.
- Implemented features such as user authentication, post creation, likes, and comments.
- Developed backend services using Node.js and Express.js with MongoDB for data persistence.
- Integrated RESTful APIs with a responsive React frontend.

Certifications

- Java Programming – Sony Computer Education
- Python Programming – NIII Foundation
